Système d'arrosage Irrigasc

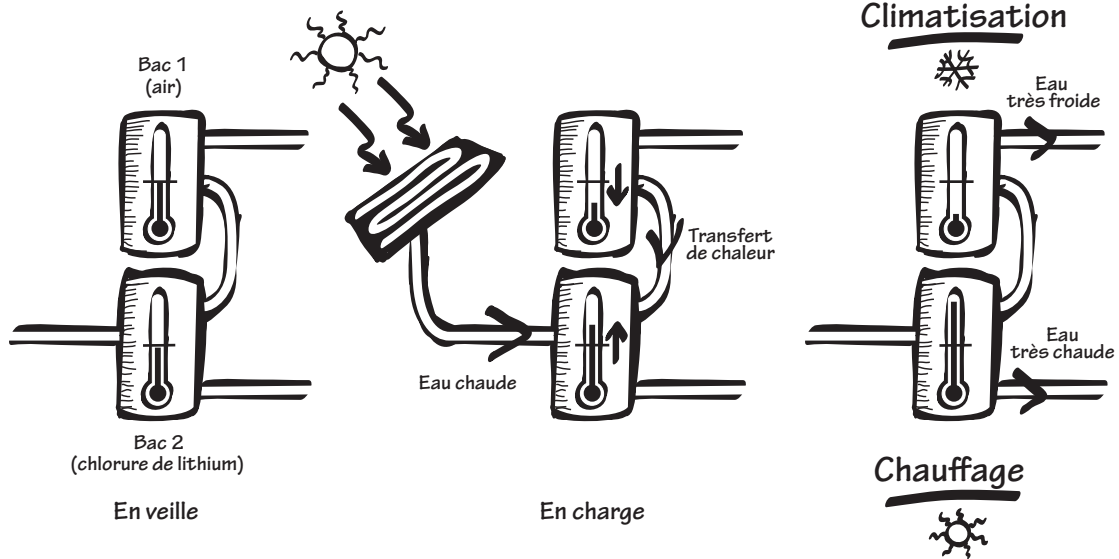

30 Litres d'eau
par semaine
sans Irrigasc

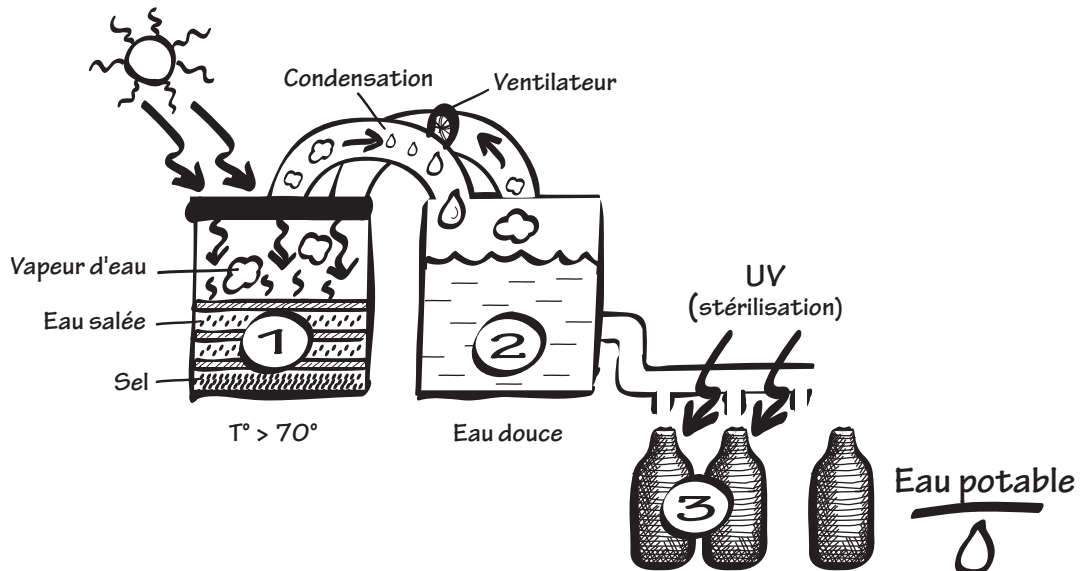

3 Litres d'eau
par semaine
avec Irrigasc

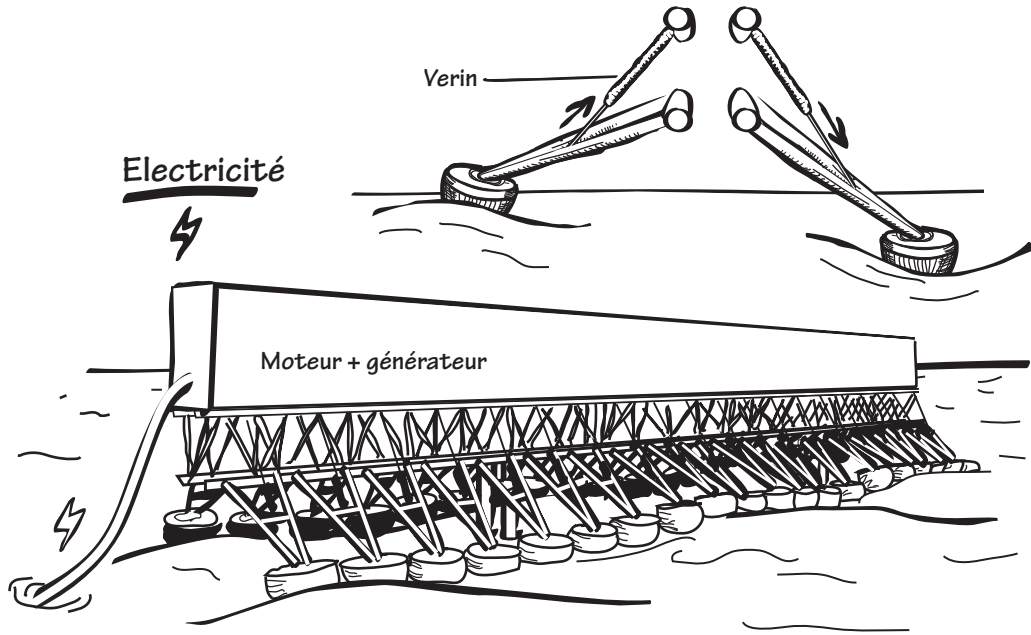

Climatisation réversible

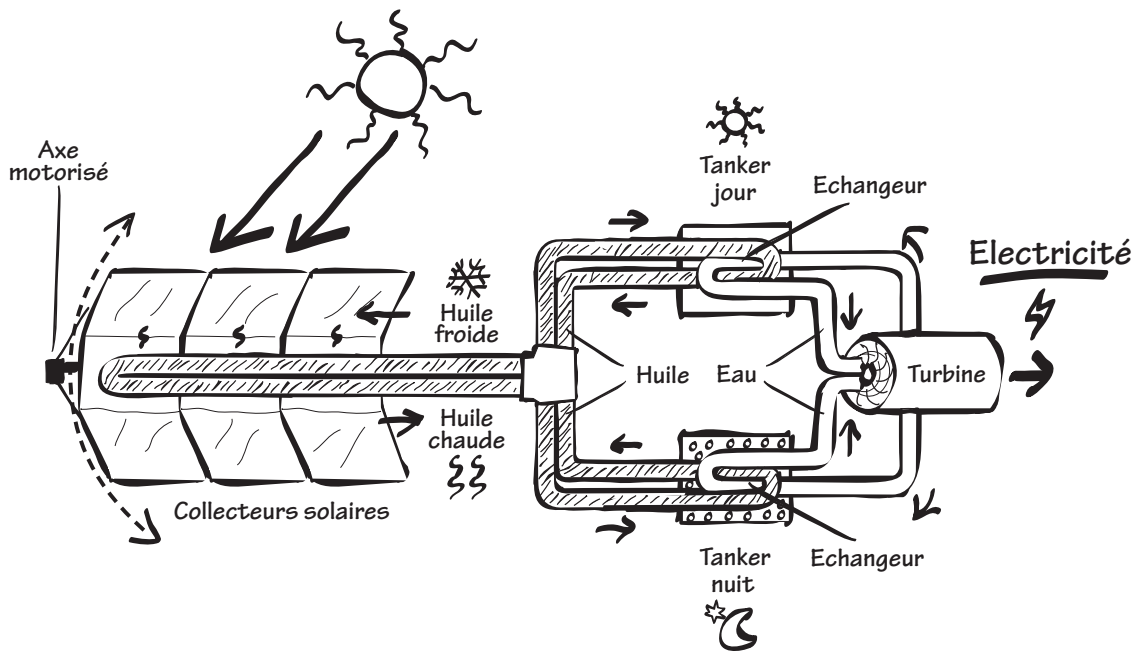

Stérilisation solaire de l'eau

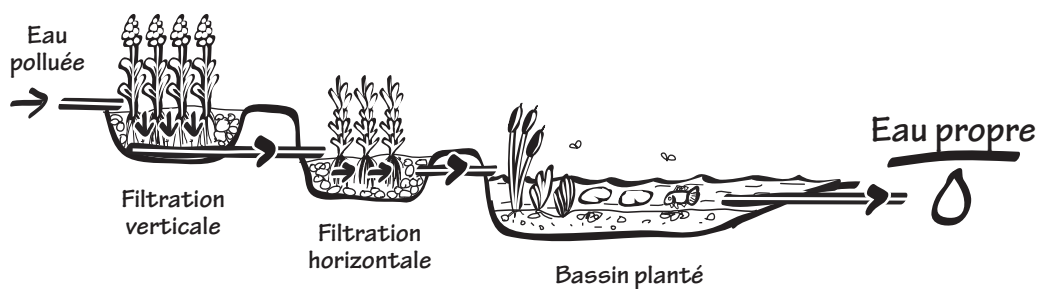

Electricité à partir des vagues

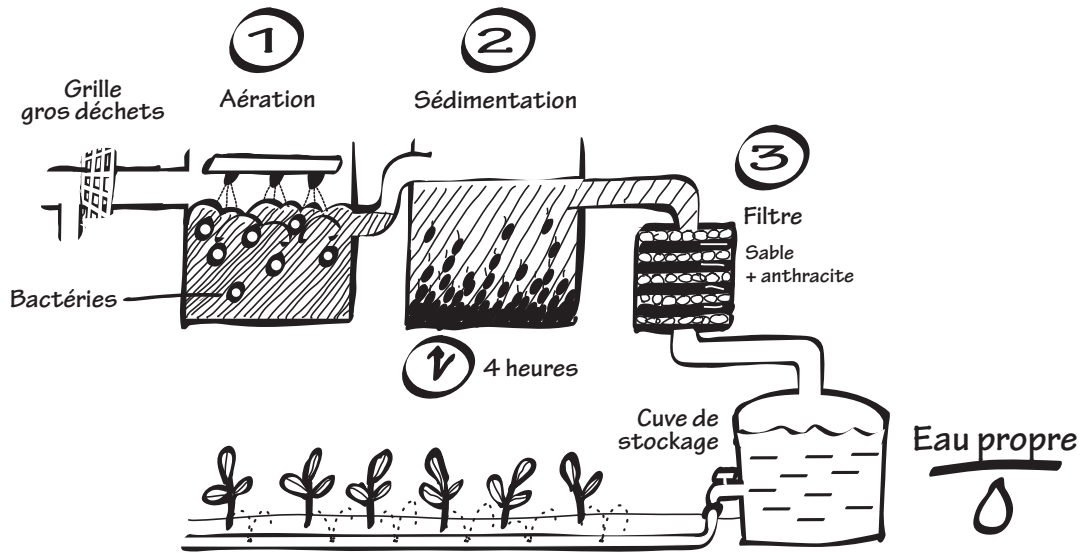

Système de production électrique Endasol (concentration solaire)

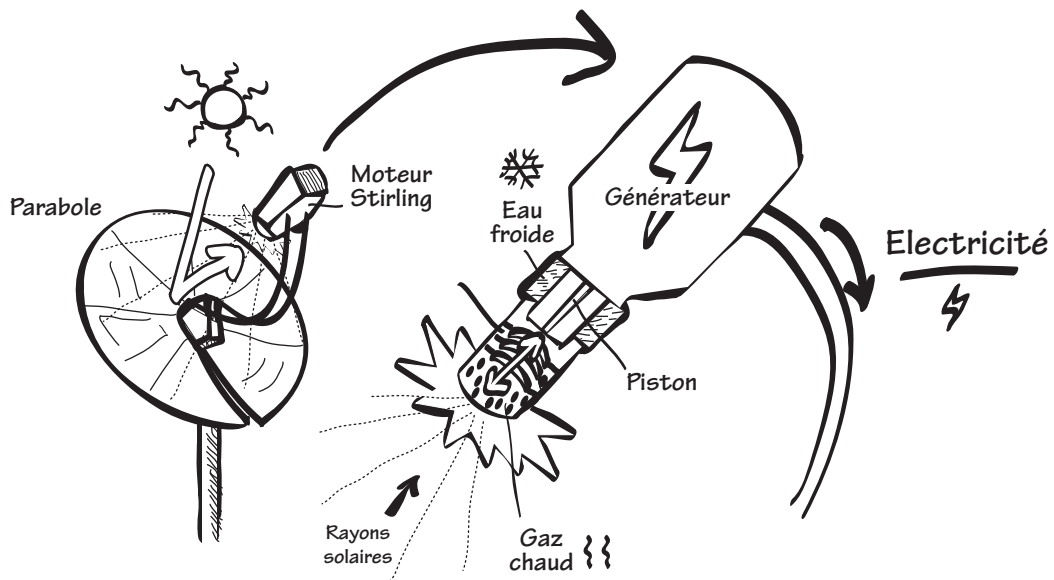

Filtration de l'eau par bassins plantés

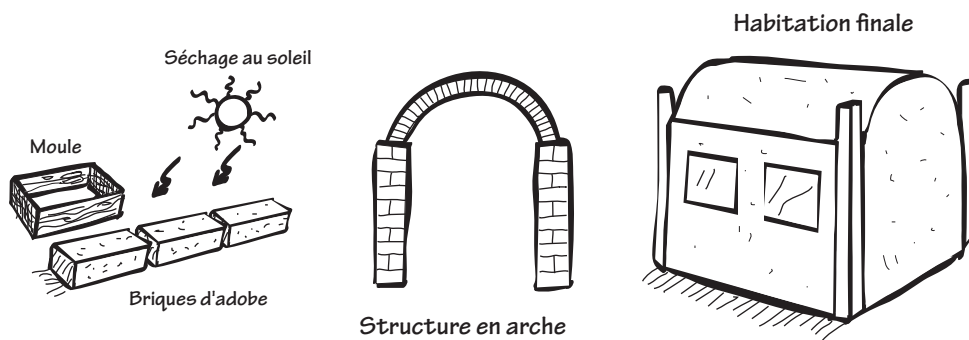

Filtration et assainissement des eaux usées

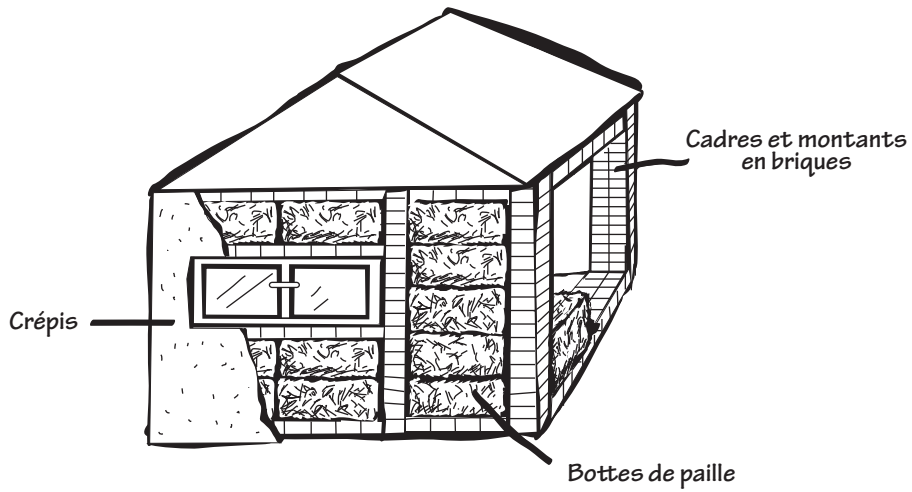

Production électrique Infinia (concentration solaire individuelle)

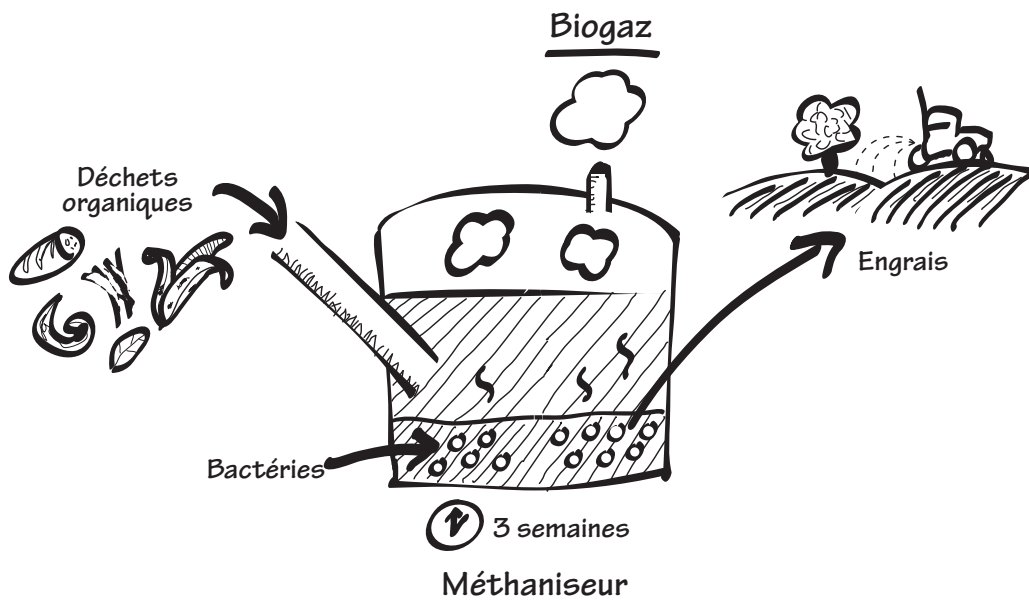

Construction en briques d'adobe

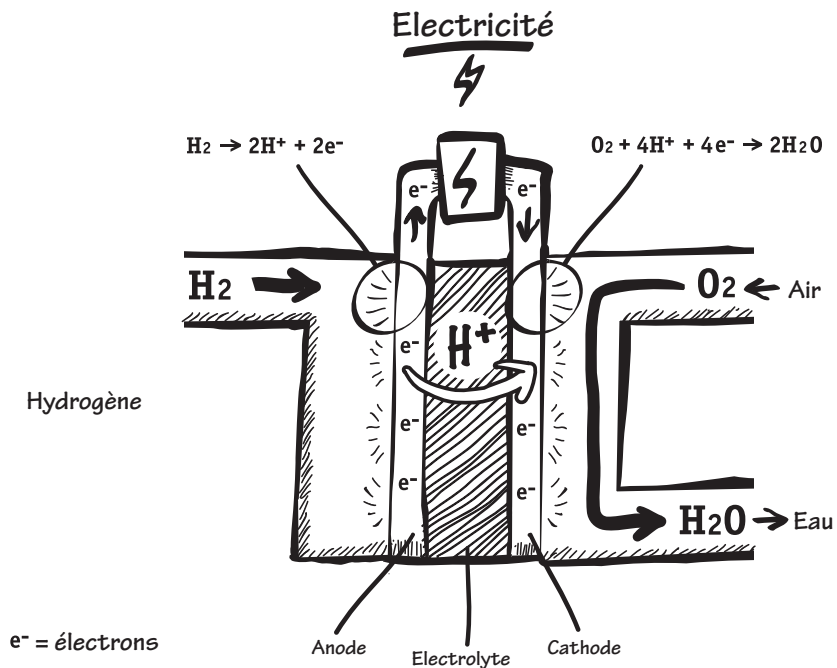

Construction en paille

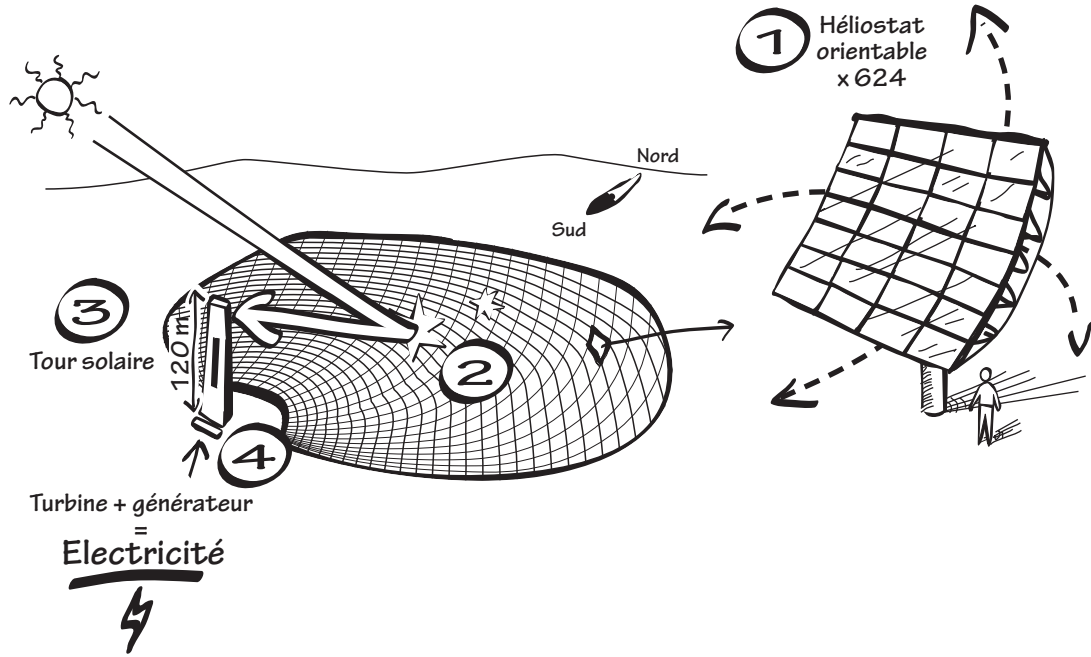

Méthanisation

Pile à hydrogène

Tour à concentration solaire

Système d'assainissement des eaux usées TZ
